Exclusive NetBackup 5240 and 5330 Appliance Refresh Offer

Ensure your infrastructure is ransomware-resilient.

Today, ransomware is top of mind for IT managers. Modernizing an aging backup appliance is one of the fastest ways to add ransomware resilience to your IT infrastructure. Given the ongoing concerns about financing and cash flow, Veritas wants to help make your data protection decision easier. That's why we created a special offer for eligible customers to upgrade from a NetBackup™ 5240 or 5330 Appliance to a ransomware-resilient NetBackup Flex 5350 or Flex 5250 Appliance. With the integrated, easy-to-deploy Flex appliance, you can:

- Boost your ransomware resilience with multi-layer security and immutable storage

- Help ensure your data is secure from bad actors, with a hardened Linux operating system and built-in intrusion detection and prevention

- Reduce your data center costs, and increase security by consolidating and isolating critical workloads

Refresh Offer Overview

Until March 31, 2023, Veritas is making it easy for eligible customers to migrate from an existing NetBackup 5330 or 5240 Appliance to a new NetBackup Flex 5350 or 5250 Appliance. Eligible customers will receive a credit for the price of the NetBackup Flex Appliance hardware when they purchase a three or five year NetBackup Flex Software license and three or five years of NetBackup Flex Appliance support. See details, below.

Refresh Offer Details

Veritas NetBackup 5240 and 5330 Appliance Refresh - Qualifying Orders and Eligible Customers	- The Offer: **Refresh your NetBackup 5240 or NetBackup 5330 Appliance with a new NetBackup Flex 5250, Flex 5350, or Flex 5350 HA Appliance and associated NetBackup Flex Software license, and receive a credit for the NetBackup Flex Appliance hardware.** - Eligible customers will receive a 50 percent credit for the price of the NetBackup Flex Appliance hardware when they purchase a five-year NetBackup Flex Software license and five years of NetBackup Flex Appliance support. - Eligible customers will receive a 30 percent credit for the price of the NetBackup Flex Appliance hardware when they purchase a three-year NetBackup Flex Software license and three years of NetBackup Flex Appliance support. - Eligible customers with NetBackup 5240 or 5330 Appliances will be identified by Veritas. Veritas, in its sole discretion, will determine the customers and the NetBackup 5240 or 5330 Appliances eligible for the offer. - To qualify, orders must be received by Veritas August 29, 2022 through March 31, 2023.

Veritas NetBackup 5240 and 5330 Appliance Refresh - Qualifying Orders and Eligible Customers

</td>
<td>

- Eligible customers must have a NetBackup 5240 or 5330 Appliance hardware platform that runs NetBackup Software and an active appliance support contract. The offer, with respect to the new appliance, is available to all capacities and I/O configs of NetBackup Flex 5250 or 5350/5350HA.

- Each qualifying order must include a NetBackup Flex Software subscription license for a three or fiveyear term. The purchased quantity of NetBackup Flex Software must be equivalent to the total Flex Appliance hardware capacity, including any expansion shelves.

- Each qualifying order must also include a three or five year Essential Appliance Support contract, where available, for each of the Flex 5250 or 5350/5350HA Appliances on the order. If Essential Appliance Support is not available for Flex Appliances in your area, purchase of standard support is required.

- The amount of the credit for the price of the NetBackup Flex 5250 or 5350/5350 HA appliance hardware is based on the then-current price for such appliance hardware, as specified on the applicable price list.

- Standard appliance deployment services for each 5250 or 5350/5350 HA Flex Appliance needs to be included in the order.

- The customer will decommission the 5240 or 5330 NetBackup Appliance hardware platform after the deployment of their new Flex 5250 or 5350/5350 HA Appliance, and after any necessary migrations are completed to the new Flex 5250 or 5350/5350 HA Appliance.

- Note: For countries requiring a commercial invoice for customs regulations, Veritas is required to provide a value on the commercial invoice for all Flex Appliance hardware shipped with this promotion. This value is for commercial invoice purposes only and is not included in the price the customer will pay under this promotion. The price the customer will pay is provided on the billing invoice, sent separately.

</td>

</table>

- Eligible customers must submit qualifying orders to their Veritas account representative or channel partner between August 29, 2022 and March 31, 2023.

- Cannot be used on previous purchases.

- Any item received under this incentive may not be redeemed or returned for cash, substituted, transferred, or exchanged. Consistent with Veritas policy, no returns on Veritas products will be provided, including products under the promotion. Any return permitted by Veritas, in its sole discretion, will reflect an adjusted cost taking into account the cost impact of the promotion.

- Standard purchasing terms apply.

- Other terms and conditions or restrictions may apply to this promotion. Veritas reserves the right to change or cancel these incentives at any time. Please contact your Veritas Account Manager or Veritas Sales with any further questions.

About Veritas

Veritas Technologies is a global leader in data protection and availability. Over 80,000 customers—including 87 percent of the Fortune Global 500—rely on us to abstract IT complexity and simplify data management. The Veritas Enterprise Data Services Platform automates the protection and orchestrates the recovery of data everywhere it lives, ensures 24/7 availability of business-critical applications, and provides enterprises with the insights they need to comply with evolving data regulations. With a reputation for reliability at scale and a deployment model to fit any need, Veritas Enterprise Data Services Platform supports more than 800 different data sources, over 100 different operating systems, more than 1,400 storage targets, and more than 60 different cloud platforms.
